BPTPIA

Chairman's Message

“BPTPIA” was established in the year 2014 with aim to impart quality education to the young minds of our state. Technological progress in the last few decades has helped to purge national barriers and create a global marketplace.

Our aim is to teach students to LEARN, not just Study. Hence, we strive to travel beyond the boundaries of mere books. We have realized that the future is abstract and unknown but the youth in our hands are real and can be molded.

I also understand the need for the students to feel at home in the college environment. Both the teaching fraternity and the management team are amiable and affectionate, yet they make the students as disciplined individuals such that success is always on their side. All amenities like computer labs with internet facility, library and laboratories, hostels, transports etc. function in full swing to make the students perform well. Added to this, to encourage sports and extracurricular activities among the students for overall development of students.

Er. Ravi Shankar Prasad Singh
(Chairman)
BPTPIA

Secretary's Message

At the outset I send my greetings to all aspirants who has the zeal to be an engineer & conquer challenges coming their way in all aspects. We as an association for Bihar Private Technical & Profession colleges, committed to provide a complete package of educational services to our students to compete with other state's expensive college's students.

In this process the association intends to unite all dimensions of Education from Undergraduate to Graduate Programmes in Engineering and Technology, Computer Applications and so on under the same umbrella in order to comprehensively and collectively optimize the reach of Educational Initiatives in every strata and corner of society towards a better future.

Now, when this vision of duty, aspiration and faith has become a reality, it is a proud moment for me and my team to see thousands of students pursuing Technical education in BPTPIA Colleges and equipping themselves to become industry ready professionals for successful careers.

Our educational Initiatives believes that creating an academic foundation for social, cultural, scientific, economic and technological development in our State, Bihar will eventually benefit in nation building towards greater future. Therefore, our focus is to achieve unparalleled excellence that will bring development to our society, state and mankind by optimizing their potential & caliber.
